IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

DETAILED ACTION

Reasons for Allowance

- The following is an examiner's statement of reasons for allowance:

This application claims the following structure:

An endless circulation passage in which the balls circulate, the armature is located within the guide passage of the track rail while being fixed to the connecting top board at a position between the pair of sliders, the field magnet being opposed to the armature core fixed to the connecting top board, the stationary base portion of the track rail serving as a yoke of the field magnet (claim 1).

The above noted structure in combination with all the other elements of the claim is not shown in a publication and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
